

RESMED

Mask performance you can trust

Thanks to ActiveCell™ Technology, your Mirage Activa LT does all the work for you.

The dynamic cushion is secure enough to give you an effective seal, yet gentle enough to move when you do ... so all you need to do is enjoy a good night's sleep.

Your mask comes with a comprehensive user support package, which includes a handy bag for storage and travel, and a user guide with fitting and care instructions.

Experience the laws of attraction

The laws of attraction

- **Active cell, active seal**—Mirage Activa LT's ActiveCell Technology is truly unique. The dynamic cushion features an 'active cell' that automatically expands and contracts to create a gentle, yet secure, seal that lasts all night long.
- **Attracted to you**—Moving as you move and adjusting to changes in your therapy pressure, the active cell cushion provides a secure seal throughout the night.

Room to breathe, freedom to move

- **A hard-working cushion**—Because the cushion's active cell does all the work, the mask is less dependent on headgear tension to achieve and maintain an effective seal. In fact, Mirage Activa LT works best with some slack in the headgear—no more overtightening straps!
- **A fine-tuned fit**—With only minor fitting adjustment required, the MicroFit dial provides 24 positions of comfort at your fingertips. Easily adjustable with just one hand (and even while lying down), the MicroFit dial fine-tunes the fit where you need it most.

The quiet achiever

- **See the difference**—Both the mask frame and cushion are lighter and smaller than the original Mirage Activa ... delivering the same superior sealing technology, now more streamlined.
- **Feel the difference**—The innovative diffuse vent design quietly and softly disperses air away from your partner ... so both of you can enjoy a good night's sleep.
