NASAL PILLOWS SYSTEM

User Information

**There's Nothing Hard About It**

## Soft comfort all the way round

Comfort makes all the difference to the success of your sleep therapy. Swift FX brings new meaning to comfortable therapy with a flexible, super-soft fit. Its fluid design follows your facial contours and adapts as you move. From the cushioning nasal pillows to the contouring headgear, Swift FX surrounds you with softness for a peaceful night's sleep.

## Some things are just meant to be easy

Swift FX brings you the best—and easiest—of nasal pillows. Much design expertise has been poured into combining simplicity with performance. From the moment you put it on, you'll know that this is an experience unlike any other. Take the Swift FX apart for cleaning and you'll be delighted to discover that it has very few parts—making it even easier to look after. Swift FX—easy does it.

## Feel free to move

Movement during sleep is only natural. Swift FX is one of the few masks specifically designed to 'un-restrict' your movement, while staying in position itself. Sleep with peace of mind, knowing that your mask will continue to deliver the air you need to breathe properly. Advanced engineering delivers the therapy you need while allowing a wide range of natural sleeping positions.
